dust extraction

## Abranet ACE

Abranet® Ace is a new addition to the dust-free Abranet® family, designed to cope with today's demanding lacquers. The product increases production and speed for tougher, more demanding sanding applications in a variety of industrial sectors, whilst reducing costs.

This premium net product features ceramic grains that deliver a faster, more aggressive sanding operation. The improved robust grain prolongs the life and ensures fewer sanding defects and less grain breakage. The tougher velour backing provides better disc grip adhesion and enhanced edge wear, making Abranet® Ace more effective and longer lasting.

Abranet® Ace also has a highly visible reverse side print pattern making it more user friendly.

Abranet Ace available in Grits  
P80 - P1000 50 discs per box
